Methods

Accessibility

I used the WAVE evaluation tool in correspondance with WCAG checklist to diagnose this page.

Detailed Findings

Accessibility

[Use the assignment #6 instructions to determine what sections / items to be addressing]

Section	Item	Heuristic Questions	Your findings	Recommendation and WCAG 2.1 language
Structure	Lists and Menus	<ul style="list-style-type: none">Are the lists and menus organized appropriately?	There are no lists and menus to organize on this page	-
Structure	Headings	<ul style="list-style-type: none">Are there headings on the page?Is the page organized correctly?Is any text marked as a heading that shouldn't be?	There is absolutely no heading structure to this page. It needs to be coded entirely.	2.4.10 Section Headings Heading structure needs to be added to the page.
Semantics and Meaning	Page Title	Is there a meaningful page title?	No. The title is "Main Page", which says nothing about the contents.	2.4.2 Page Titled "Pages need titles that describe topic or purpose" This page title needs to be changed to something more meaningful. Like "Home Page – AHG"
Semantics and Meaning	Alt text for images	Do all images have alternative text? Does the alt text properly describe the image?	No. There is one image on the page which is the logo. There is no alternative text provided. Alt text is definitely needed as important information is included in the image.	1.1.1 Text Alternatives Alternative text must be included to describe the name, date, and location of the conference.

Section	Item	Heuristic Questions	Your findings	Recommendation and WCAG 2.1 language
Design & Layout	Color contrast	Does the foreground/background color meet the WCAG guidelines?	No. There are 7 contrast issues on this page.	1.4.3 Contrast Contrast needs to be increased to a minimum of 4.5:1
Interaction	Skip to main content	Is there a mechanism to skip navigation and other repetitive information?	No, there is not
